

## **Animal Origin (TSE/BSE) – Product Declaration**

Date: June 23, 2022

Cole-Parmer Catalog Number: 06835-07  
Item Description: KECK CLAMPS 10MM 12/PK

Cole-Parmer certifies that, according to the manufacturer, the product described meets the specifications set forth in this Certificate:

We confirm that the substances used in the manufacture of the referenced product above are mainly of petrochemical origin and not of animal origin. They are therefore of lower risk than the lowest risk categories defined in the current revision of EMA/410/01 Guidance Notes. If additives of animal origin are used, they are treated at high temperatures and undergo chemical reactions, which exceed by far the stringent requirements laid down in the Commission Regulations 1069/2009/EC, 1326/2001/EC and Commission Decision 2001/2/EC. Accordingly, transmission of animal spongiform encephalopathy agents via the mentioned components is extremely improbable.

This certification applies only to the condition of the above-described product in its unopened package. Cole-Parmer cannot and does not assume any responsibility for the failure of the product to meet this document that results from any handling or use subsequent to opening the package.

Cole-Parmer relies upon the information provided by the manufacturer of this product(s), and Cole-Parmer does not assume any responsibility for inaccuracies in the manufacturer's statements.

Cole-Parmer expressly warrants that the product listed above conforms only to the specifications herein, subject to the disclaimers listed above. Except as otherwise set forth in writing by Cole-Parmer, there are no other warranties, express or implied, that apply to this certificate or the subject product(s).
