

Wearwell® PermaTack Tacky Mats

Prevent debris and bacteria from entering sterile areas

- Reusable and economical—replace your multilayer adhesive mats
- Permanently tacky surface removes particles off shoes and wheels; contaminants remain trapped until mat is cleaned
- Removes 98 to 100% of particles if each foot touches the mat three times
- Regenerate the tack by simply cleaning the mat and allowing it to dry
- Adhesive backing allows easy installation and prevents mat movement
- Surface is static dissipative; RTT = 1×10^8 to 1×10^{10} ohms
