**BD™ Disposable Syringes**

**Luer-Lok™ tips allow for easy connection of syringe filters**

Use these latex-free, disposable polycarbonate syringes for your general-purpose applications. Available in either Luer-Lok or slip-tip versions. Autoclavable.

---

**BD™ Disposable Needles**

Fit Luer-Lok™ and slip-tip syringes

These disposable needles are made from stainless steel and provide superior sharpness. The siliconized cannulae reduce resistance and maintain speed and smoothness throughout the injection. A sheath protects the point and cannula. Sterile single-use needles come in strips of five and have lot control number on package, indicating complete sterility.

---

### Capabilities and Applications

- **Syringes**
  - **BD™ Disposable Syringes**
    - Luer-Lok™ tips
    - Easy connection of syringe filters
    - Latex-free, polycarbonate
    - Autoclavable

- **Needles**
  - **BD™ Disposable Needles**
    - Stainless steel
    - Superior sharpness
    - Silicone cannulae
    - Sterile single-use

- **Syringe Filters**
  - **Cole-Parmer® Syringe Filters**
    - Easy, reliable filtration
    - Secure fit
    - Bidirectional membrane support
