

Cole-Parmer® 1-Way Stopcocks

Polycarbonate

Cole-Parmer®

Stopcocks provide easy on/off control of your fluid. One-way stopcocks feature one female Luer fitting and a male Luer fitting with or without a lock. Luer fittings on stopcocks ensure a quick, leak-free connection. Handles indicate flow direction, enhancing operational efficiency and minimizing errors. Stopcocks are made of a polyethylene rotor and a transparent polycarbonate body.

Scan the QR code for more information on stopcocks.

WARNING: This product is not approved or intended for, and should not be used for, medical, clinical, surgical, or other patient-oriented applications.

APPLICATIONS

- Chromatography, drain lines, and sampling
- Ideal for general-purpose, laboratory, and single-use applications

FEATURES/BENEFITS

- Consistent inside diameter minimizes turbulence and bubble entrapment
- Arrow indicates flow direction
- Use with both liquids and gases
- DEHP free (non-DEHP)
- Transparent polycarbonate body makes it easy to see the flow
- Sterilize via ethylene oxide (EtO)
