(collect calls accepted)

## 2. HAZARDS IDENTIFICATION

### Classification

#### **OSHA Regulatory Status**

This chemical is considered hazardous by the 2012 OSHA Hazard Communication Standard (29 CFR 1910.1200)

Serious Eye Damage/Eye Irritation

Category 2A

### Label Elements

#### **Emergency Overview**

##### **Warning**

##### **Hazard Statements**

Causes serious eye irritation

**Appearance** Clear

**Physical State** Liquid

**Odor** None

### Precautionary Statements

#### **Prevention**

Wash face, hands and any exposed skin thoroughly after handling

Wear eye/face protection

IF IN EYES: Rinse cautiously with water for several minutes. Remove contact lenses, if present and easy to do. Continue rinsing  
If eye irritation persists: Get medical advice/attention

#### **Hazards not otherwise classified (HNOC)**

No information available

#### **Other Information**

No information available

## 3. COMPOSITION/INFORMATION ON INGREDIENTS

| Component        | CAS-No     | Weight %   |
|------------------|------------|------------|
| Water            | 7732-18-5  | >90.0%     |
| Aluminum Sulfate | 10043-01-3 | 1 - 10%    |
| Silver Sulfate   | 10294-26-5 | 0.1 - 1.0% |
| Sulfamic Acid    | 5329-14-6  | 0.1 - 1.0% |
| Boric Acid       | 10043-35-3 | 0.1 - 1.0% |

\*The exact percentage (concentration) of composition has been withheld as a trade secret.

## 4. FIRST AID MEASURES

### First aid measures

|                                   |                                                                                                                                                                                                                                                                                          |
|-----------------------------------|------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|
| <b>General Advice</b>             | Use first aid treatment according to the nature of the injury. Get medical attention immediately if symptoms occur. Show this safety data sheet to the doctor in attendance.                                                                                                             |
| <b>Eye Contact</b>                | Rinse thoroughly with plenty of water, also under the eyelids. Obtain medical attention.                                                                                                                                                                                                 |
| <b>Skin Contact</b>               | Wash off immediately with soap and plenty of water for at least 15 minutes. Take off contaminated clothing and shoes immediately. In case of skin reactions, consult a physician.                                                                                                        |
| <b>Inhalation</b>                 | Move to fresh air. If breathing is difficult, give oxygen. Get medical attention if symptoms occur.                                                                                                                                                                                      |
| <b>Ingestion</b>                  | Clean mouth with water and drink afterwards plenty of water. Do not induce vomiting. Call a physician or Poison Control Center immediately.                                                                                                                                              |
| <b>Protection of First-aiders</b> | Use personal protective equipment. See section 8 for more information. Do not use mouth-to-mouth method if victim ingested or inhaled the substance; give artificial respiration with the aid of a pocket mask equipped with a one-way valve or other proper respiratory medical device. |

### Most important symptoms and effects, both acute and delayed

**Most important symptoms/effects** No information available

### Indication of any immediate medical attention and special treatment needed

**Notes to Physician** Treat symptomatically

## 5. FIRE-FIGHTING MEASURES

### Suitable Extinguishing Media

Use extinguishing measures that are appropriate to local circumstances and the surrounding environment.

### Unsuitable Extinguishing Media

No information available

### Specific Hazards Arising from the Chemical

No information available.

### Explosion Data

**Sensitivity to Mechanical Impact** None

**Sensitivity to Static Discharge** None

### Protective Equipment and Precautions for Firefighters

As in any fire, wear self-contained breathing apparatus pressure-demand, MSHA/NIOSH (approved or equivalent) and full protective gear.

## 6. ACCIDENTAL RELEASE MEASURES

### Personal Precautions, Protective Equipment and Emergency Procedures

**Personal Precautions** Use personal protective equipment. For further specification, refer to section 8 of the SDS. Evacuate personnel to safe areas.

**Environmental Precautions** Beware of vapors accumulating to form explosive concentrations. Vapors can accumulate in low areas.

### Methods and Material for Containment and Cleaning Up

**Methods for Containment** Prevent further leakage or spillage if safe to do so.

**Methods for Cleaning Up** Soak up with inert absorbent material. Pick up and transfer to properly labeled containers.

## 7. HANDLING AND STORAGE

### Precautions for Safe Handling

**Handling** To avoid risks to human health and the environment, comply with the instructions for use  
Wear personal protective equipment  
Avoid breathing dust/fume/gas/mist/vapors/spray  
Ensure adequate ventilation, especially in confined areas

### Conditions for Safe Storage, Including any Incompatibilities

**Storage** Keep container tightly closed in a dry and well-ventilated place  
Store at room temperature in the original container  
Keep away from direct sunlight

**Incompatible Products** No information available

## 8. EXPOSURE CONTROLS/PERSONAL PROTECTION

### Control parameters

#### Exposure Guidelines

| Component                      | ACGIH TLV                                             | OSHA PEL                              | NIOSH IDLH                                                |
|--------------------------------|-------------------------------------------------------|---------------------------------------|-----------------------------------------------------------|
| Aluminum Sulfate<br>10043-01-3 | -                                                     | (Vacated) TWA: 2 mg/m <sup>3</sup>    | TWA: 2 mg/m <sup>3</sup>                                  |
| Silver Sulfate<br>10294-26-5   | TWA: 0.01 mg/m <sup>3</sup>                           | (Vacated) TWA: 0.01 mg/m <sup>3</sup> | IDLH: 10 mg/m <sup>3</sup><br>TWA: 0.01 mg/m <sup>3</sup> |
| Boric Acid<br>10043-35-3       | TWA: 2 mg/m <sup>3</sup><br>STEL: 6 mg/m <sup>3</sup> | -                                     | -                                                         |

### Appropriate engineering controls

**Engineering Measures** Showers  
Eyewash stations  
Ventilation systems

### Individual protection measures, such as personal protective equipment

**Eye/face Protection** Wear chemical splash goggles and face shield. If splashes are likely to occur, wear:  
Face-shield.

**Skin and Body Protection** Wear protective gloves/clothing.

**Respiratory Protection** None under normal use conditions. In case of inadequate ventilation wear respiratory protection.

**Hygiene Measures** Handle in accordance with good industrial hygiene and safety practice.

## 9. PHYSICAL AND CHEMICAL PROPERTIES

### Information on basic physical and chemical properties

**Physical State** Liquid  
**Appearance** Clear  
**Odor** None  
**Odor Threshold** No information available  
**PH Range** 2.5 - 5.5

| <u>Property</u>              | <u>Values</u>            | <u>Remarks • Method</u> |
|------------------------------|--------------------------|-------------------------|
| Melting point/freezing point | No information available |                         |
| Boiling Point/Range          | ~ 100 °C / 212 °F        |                         |
| Flash Point (High in °C)     | N/A                      |                         |
| Evaporation Rate             | No information available |                         |
| Flammability (solid, gas)    | No information available |                         |
| Flammability Limit in Air    |                          |                         |
| Upper flammability limit:    | No information available |                         |
| Lower flammability limit:    | No information available |                         |
| Vapor pressure               | No information available |                         |
| Vapor Density                | No information available |                         |
| Specific Gravity             | No information available |                         |
| Water Solubility             | Soluble in water         |                         |
| Solubility in other solvents | No information available |                         |
| Partition coefficient        | No information available |                         |
| Autoignition Temperature     |                          |                         |
| Decomposition Temperature    | No information available |                         |
| Kinematic viscosity          | No information available |                         |

| VOC Content(%)               | No information available |                         |
| Density                      | No Information available |                         |
| Bulk Density                 | No information available |                         |

## 10. STABILITY AND REACTIVITY

### Reactivity

No Information available

### Chemical Stability

Stable under normal conditions

### Possibility of Hazardous Reactions

None under normal processing

### Conditions to Avoid

Extremes of temperature and direct sunlight

### Incompatible Materials

No information available

### Hazardous Decomposition Products

Thermal decomposition can lead to release of irritating gases and vapors

## 11. TOXICOLOGICAL INFORMATION

### Information on likely routes of exposure

|              |                          |
|--------------|--------------------------|
| Inhalation   | No information available |
| Eye Contact  | No information available |
| Skin Contact | No information available |
| Ingestion    | No information available |

| Component                      | LD50 Oral                 | LD50 Dermal                  | LC50 Inhalation              |
|--------------------------------|---------------------------|------------------------------|------------------------------|
| Water<br>7732-18-5             | LD50 > 90 mL/kg ( Rat )   | -                            | -                            |
| Aluminum Sulfate<br>10043-01-3 | LD50 = 1930 mg/kg ( Rat ) | -                            | -                            |
| Sulfamic Acid<br>5329-14-6     | LD50 = 1450 mg/kg ( Rat ) | -                            | -                            |
| Boric Acid<br>10043-35-3       | LD50 = 2660 mg/kg ( Rat ) | LD50 > 2000 mg/kg ( Rabbit ) | LC50 > 0.16 mg/L ( Rat ) 4 h |

#### Information on Toxicological Effects

**Symptoms** No information available

#### Delayed and immediate effects as well as chronic effects from short and long-term exposure

**Sensitization** No information available

**Mutagenic Effects** No information available

**Carcinogenicity** No information available.

**Reproductive Effects** No information available

**STOT - single exposure** No information available

**STOT - repeated exposure** No information available

**Aspiration hazard** No information available

#### Numerical measures of toxicity - Product Information

The following values are calculated based on chapter 3.1 of the GHS document .

ATEmix (oral) 47577 mg/kg

ATEmix (inhalation-dust/mist) 16 mg/L

## **12. ECOLOGICAL INFORMATION**

#### Ecotoxicity

0% of the mixture consists of components(s) of unknown hazards to the aquatic environment

| Component                      | Freshwater Algae | Freshwater Fish                                                                                | Water Flea                                   |
|--------------------------------|------------------|------------------------------------------------------------------------------------------------|----------------------------------------------|
| Aluminum Sulfate<br>10043-01-3 | -                | LC50: = 37 mg/L, 96h static<br>(Gambusia affinis)<br>LC50: = 100 mg/L, 96h (Carassius auratus) | EC50: = 136 mg/L, 15min (Daphnia magna)      |
| Sulfamic Acid<br>5329-14-6     | -                | LC50: = 14.2 mg/L, 96h static<br>(Pimephales promelas)                                         | -                                            |
| Boric Acid<br>10043-35-3       | -                | LC50: = 1020 mg/L, 72h<br>flow-through (Carassius auratus)                                     | EC50: 115 - 153 mg/L, 48h<br>(Daphnia magna) |

#### Persistence and Degradability

No information available

#### Bioaccumulation/ Accumulation

No information available

#### Mobility

| Component                | log Pow |
|--------------------------|---------|
| Boric Acid<br>10043-35-3 | -0.757  |

**Other adverse effects**  
No information available

### 13. DISPOSAL CONSIDERATIONS

#### Waste treatment methods

**Waste Disposal Methods** Disposal should be in accordance with applicable regional, national and local laws and regulations.

**Contaminated Packaging** Improper disposal or reuse of this container may be dangerous and illegal.

| Component                    | CAWAST |
|------------------------------|--------|
| Silver Sulfate<br>10294-26-5 | Toxic  |
| Boric Acid<br>10043-35-3     | Toxic  |

### 14. TRANSPORT INFORMATION

**DOT** Not regulated

**ICAO** Not regulated

**IATA** Not regulated

**IMDG/IMO** Not regulated

### 15. REGULATORY INFORMATION

| Reason for revision | SDS sections updated.            |

**Disclaimer**

IMPORTANT: The information contained in this SDS is correct to the best of our knowledge as of the issue date (or subsequent revision date, if any), and is to be used only as a guide. This SDS does not constitute a guarantee (express or implied) of any kind and we make no warranties of any kind as to the accuracy or completeness of the information contained herein or the merchantability or fitness of the product or this information for a particular purpose. It is the responsibility of each individual buyer/user to determine the suitability of this information and the product for its intended purposes. Product sales are subject to Thermo Fisher Scientifics standard terms and conditions of sale. This information relates only to the designated product as shipped and may not be valid if the product is used in combination with any other materials or is not used in accordance with our instructions, or is altered in any way. It is the responsibility of the buyer/user to ensure that its activities comply with all applicable government requirements. Since conditions of use of the product are not under direct control of Thermo Fisher Scientific, it is the duty of the buyer/user to determine the necessary conditions for the safe use of the product. Thermo Fisher Scientific will not be liable for any injuries or damages resulting from handling, use, misuse or contact with the product.
