

SAFETY DATA SHEET

Preparation Date: 05/19/2015 Revision date 4/8/2019 Revision Number: G3

1. IDENTIFICATION

Product identifier

Product code: A1242

Product Name: AMMONIUM SULFATE, ULTRAPURE

Other means of identification

Synonyms: Ammonium hydrogen sulfate

Ammonium sulfate

Ammonium sulfate ((NH4)2SO4)

Ammonium sulfate (2:1) Ammonium sulphate Diammonium sulfate Diammonium sulphate

Dolamin Mascagnite

Sulfuric acid, diammonium salt

CAS #: 7783-20-2
RTECS # BS4500000
CI#: Not available

Recommended use of the chemical and restrictions on use

Recommended use: Feed additive. Chemical intermediate. Cellulose insulation. Fire extinguishing

agent. Production of metals, noble metals. Woodworking industry for production of curing agents for urea-formaldehyde and melamine-formaldehyde resins used in the manufacture of chipboard. In pharmaceuticals. Textile industry. Analytic Chemistry. In flame-retardant products. Food Additive. Fertilizer compositions.

Herbicide.

Uses advised against No information available

<u>Supplier:</u> Spectrum Chemical Mfg. Corp

14422 South San Pedro St.

Gardena, CA 90248 (310) 516-8000

Order Online At: https://www.spectrumchemical.com

Emergency telephone number Chemtrec 1-800-424-9300

Contact Person:Tom Tyner (USA - West Coast)Contact Person:Ibad Tirmiz (USA - East Coast)

2. HAZARDS IDENTIFICATION

Classification

This chemical is considered hazardous by the 2012 OSHA Hazard Communication Standard (29 CFR 1910.1200)

Considered a dangerous substance or mixture according to the Globally Harmonized System (GHS)

Skin corrosion/irritation Category 2

Product code: A1242 Product name: AMMONIUM Page 1 / 12

Serious eye damage/eye irritation Category 2B

Label elements

Warning

Hazard statements

Causes skin irritation Causes eye irritation

Hazards not otherwise classified (HNOC)

Not Applicable

Other hazards

May be harmful if swallowed Harmful to aquatic life with long lasting effects Harmful to aquatic life

Precautionary Statements - Prevention

Wash face, hands and any exposed skin thoroughly after handling Wear protective gloves

Precautionary Statements - Response

Specific treatment (see .? on this label)

IF IN EYES: Rinse cautiously with water for several minutes. Remove contact lenses, if present and easy to do. Continue rinsing. If eye irritation persists: Get medical advice/attention.

IF ON SKIN: Wash with plenty of water

If skin irritation occurs: Get medical advice/attention Take off contaminated clothing and wash it before reuse

3. COMPOSITION/INFORMATION ON INGREDIENTS

С	omponent	CAS No	Weight-%
Amm	onium Sulfate	7783-20-2	100

4. FIRST AID MEASURES

First aid measures

General Advice: National Capital Poison Center in the United States can provide assistance if you

have a poison emergency and need to talk to a poison specialist. Call

1-800-222-1222.

Skin Contact: Wash off immediately with soap and plenty of water removing all contaminated clothing and

shoes. Get medical attention. If symptoms persist, call a physician.

Eye Contact: Flush eyes with water for 15 minutes. Get medical attention.

Inhalation: Move to fresh air. If not breathing, give artificial respiration. If breathing is difficult, give

Product code: A1242 Product name: AMMONIUM Page 2 / 12

oxygen. Get medical attention.

Ingestion: Do not induce vomiting without medical advice. Never give anything by mouth to an

unconscious person. Obtain medical attention.

Most important symptoms and effects, both acute and delayed

Symptoms Causes eye irritation

Causes skin irritation

May cause irritation of respiratory tract

May cause digestive (gastrointestinal) tract irritation May cause abdominal pain, nausea, vomiting, diarrhea

Central nervous system effects

Indication of any immediate medical attention and special treatment needed

Notes to Physician: Treat symptomatically.

Protection of first-aiders

First-Aid Providers: Avoid exposure to blood or body fluids. Wear gloves and other necessary protective clothing. Dispose of contaminated clothing and equipment as bio-hazardous waste.

5. FIRE-FIGHTING MEASURES

Extinguishing Media

Suitable Extinguishing Media: The product is not flammable. If it is involved in a fire,

extinguish the fire using an agent suitable for the type of

surrounding fire.

Unsuitable Extinguishing Media: No information available.

Specific hazards arising from the chemical

Hazardous combustion products If it is involved in a fire the following can be released:.

Sulfur oxides. Ammonia. Nitrogen oxides (NOx).

Specific hazards A mixture of ammonium sulfate and potassium chlorate

decomposes with incandescence when heated. When a little ammonium sulfate is added to fused potassium nitrite, a vigorous reaction occurs attended by flame. If accidently mixed with oxidizers like potassium chlorate, potassium nitrate or potassium nitrite, there is an explosion hazard. A mixture of ammonium sulfate and ammonium nitrate can easily be exploded by potassium or sodium-potassium alloy. Reaction with sodium hypochlorite and ammonium

sulfate produces the unstable explosive nitrogen

trichloride.

Special Protective Actions for Firefighters

Specific Methods: No information available

Special Protective Equipment for Firefighters: As in any fire, wear self-contained breathing apparatus

pressure-demand, MSHA/NIOSH (approved or equivalent)

and full protective gear

Product code: A1242 Product name: AMMONIUM Page 3 / 12

6. ACCIDENTAL RELEASE MEASURES

Personal precautions, protective equipment and emergency procedures

Personal Precautions: Ensure adequate ventilation. Use personal protective equipment. Avoid contact with skin,

eyes and clothing. Avoid dust formation. Remove all sources of ignition.

Environmental precautions Do not let product enter drains. Prevent further leakage or spillage if safe to do so.

Prevent entry into waterways, sewers, basements or confined areas.

Methods and material for containment and cleaning up

Methods for containment Stop leak if you can do it without risk. Cover with plastic sheet to prevent

spreading.

Methods for cleaning up Sweep up and shovel into suitable containers for disposal. Clean contaminated

surface thoroughly.

7. HANDLING AND STORAGE

Precautions for safe handling

Technical Measures/Precautions:

Provide appropriate exhaust ventilation at places where dust is formed. Avoid dust formation. Keep away from incompatible materials.

Safe Handling Advice

Wear personal protective equipment. Avoid contact with skin, eyes and clothing. Avoid dust formation. Do not breathe vapors/dust. Do not ingest. Do not smoke. Keep away from heat and sources of ignition. Handle in accordance with good industrial hygiene and safety practice.

Conditions for safe storage, including any incompatibilities

Technical Measures/Storage Conditions:

Keep container tightly closed in a dry and well-ventilated place. Store at room temperature in the original container. Store away from incompatible materials.

Incompatible Materials:

Strong oxidizing agents
Strong bases

8. EXPOSURE CONTROLS/PERSONAL PROTECTION

Control parameters

National occupational exposure limits

United States

Component	CAS No	OSHA	NIOSH	ACGIH	AIHA WEEL
Ammonium Sulfate	7783-20-2	None	None	None	None

Canada

ſ	Component	CAS No	Canada - Alberta	Canada - British Columbia	Canada - Ontario	Canada - Quebec
	Ammonium Sulfate	7783-20-2	None	None	None	None

Australia and Mexico

Product code: A1242 Product name: AMMONIUM Page 4 / 12 SULFATE, ULTRAPURE

Component	CAS No	Australia	Mexico
Ammonium Sulfate	7783-20-2	None	None

Appropriate engineering controls

Engineering measures to reduce exposure: Use process enclosures, local exhaust ventilation, or other

engineering controls to keep airborne levels below recommended exposure limits. If user operations generate dust, fume or mist, use ventilation to keep exposure to airborne contaminants below the exposure

limit.

Individual protection measures, such as personal protective equipment

Personal Protective Equipment

Eye protection: Goggles Safety glasses with side-shields.

Skin and body protection: Long sleeved clothing

apron Gloves

Respiratory protection: Effective dust mask. Use a dust respirator under conditions where exposure to

the substance is apparent (e.g. generation of high concentration of dust (dust clouds), inadequate ventilation, development of respiratory tract irritation), and engineering controls are not feasible. Be sure to use an approved/certified

respirator or equivalent.

Hygiene measures: Avoid contact with skin, eyes and clothing. When using, do not eat, drink or

smoke. Wash hands before breaks and immediately after handling the product

9. PHYSICAL AND CHEMICAL PROPERTIES

Physical state: Appearance: Color:

Solid Crystalline solid. Brownish-gray. White.

Odor:TasteFormulaOdorless.No information available.(NH4)2SO4

Molecular/Formula weight (g/mole): Flammability (solid, gas) Flashpoint (°C/°F):

Insoluble in Acetone Insoluble in Ethanol

10. STABILITY AND REACTIVITY

Reactivity

Highly reactive with oxidizing agents.Reactive with Potassium + ammonium nitrate, potassium chlorate, potassium nitrate, potassium hypochlorite, sodium/potassium alloy + ammonium nitrate..

A mixture of ammonium sulfate and potassium chlorate decomposes with incandescence when heated. When a little ammonium sulfate is added to fused potassium nitrite, a vigorous reaction occurs attended by flame

If accidently mixed with oxidizers like potassium chlorate, potassium nitrate or potassium nitrite, there is an explosion. A mixture of ammonium sulfate and ammonium nitrate can easily be exploded by potassium or sodium-potassium alloy.

Reacts with strong bases

Chemical stability

Stability: Stable under recommended storage conditions.

Possibility of Hazardous Reactions: Hazardous polymerization does not occur

<u>Conditions to avoid:</u> Stable at normal conditions.

<u>Incompatible Materials:</u> Strong oxidizing agents

Strong bases

Hazardous decomposition When heated to decomposition it emits highly toxic fumes. Sulfur oxides. Nitrogen

products: oxides (NOx). Ammonia.

Other Information

Corrosivity: No information available

Special Remarks on Corrosivity: No information available

11. TOXICOLOGICAL INFORMATION

Information on likely routes of exposure

Principal Routes of Exposure:

Inhalation. Ingestion.

Acute Toxicity

Component Information

Ammonium Sulfate

CAS No 7783-20-2

LD50/oral/rat = 2840 mg/kg Oral LD50 Rat; 3000-4000 mg/kg

Symptoms

Skin Contact: Causes skin irritation.

Eye Contact: Causes eye irritation.

Inhalation May cause respiratory tract irritation.

Ingestion When ingested, its osmolarity can draw water from the body into the bowel, acting

as a laxative. However, if enough is absorbed systemically it may produce Ammonia poisoning. Symptoms may include gastrointestinal (digestive) tract irritation with nausea, vomiting, hypermotility, diarrhea. May also affect eyes (Mydriasis), behavior/central nervous system (somnolence, tremor, convulsions, muscle contraction or spasticity), and respiratory system (respiratory stimulation, dyspnea). Also, with ingestion of large doses of Ammonium Sulfate arises the possibility of sufficient absorption to produce diuresis, an excessive discharge of

urine, and

kidney damage (renal tubular disorder, abnormal renal function.

Aspiration hazard No information available.

Delayed and immediate effects as well as chronic effects from short and long-term exposure

Chronic Toxicity One Russian occupational standard study discussed chronic exposure effects

which may include cardiac contraction, neurotoxicity, and hypertension. This has

not been confirmed in other ammonium sulfate exposed workers.

Sensitization: No information available.
