# **1** Identification

- · Product identifier
- · Product Name: <u>Buffer Standard</u>
- · Part Name: PH-BUFF3-500
- · Application of the substance / the mixture Certified Reference Material
- Details of the supplier of the safety data sheet
   Manufacturer/Supplier:
   SPEX CertiPrep, LLC.
   203 Norcross Ave, Metuchen,
   NJ 08840 USA
- Information department: product safety department • Emergency telephone number: Emergency Phone Number (24 hours)
- CHEMTREC (800-424-9300)
- Outside US: 703-527-3887

# 2 Hazard(s) identification

· Classification of the substance or mixture The product is not classified, according to the Globally Harmonized System (GHS).

- · Label elements
- · GHS label elements Not Regulated
- · Hazard pictograms Not Regulated
- · Signal word Not Regulated
- · Hazard statements Not Regulated
- · Classification system:
- · NFPA ratings (scale 0 4)

· HMIS-ratings (scale 0 - 4)

- · Other hazards
- · Results of PBT and vPvB assessment
- · PBT: Not applicable.
- · vPvB: Not applicable.

#### 3 Composition/information on ingredients

- · Chemical characterization: Mixtures
- · Description: Mixture of the substances listed below with nonhazardous additions.

| <ul> <li>Dangerous</li> </ul>                          | · Dangerous components: Not Regulated               |        |
|--|---|--------|
| · Chemical identification of the substance/preparation |   |        |
| 877-24-7   | potassium hydrogen phthalate                        | 1.02%  |
| 7647-01-0  | hydrochloric acid                                   | 0.15%  |
| 50-00-0  | Formaldehyde  | 0.04%  |
| 7732-18-5  | water, distilled, conductivity or of similar purity | 98.79% |

## 4 First-aid measures

#### · Description of first aid measures

- · General information: No special measures required.
- After inhalation: Supply fresh air; consult doctor in case of complaints.
- · After skin contact: Generally the product does not irritate the skin.
- After eye contact: Rinse opened eye for several minutes under running water.
- · After swallowing: Do not give anything to eat or drink Do not induce vomitting
- · Information for Doctor:
- · Most important symptoms and effects, both acute and delayed No further relevant information available.

Safety Data Sheet acc. to OSHA HCS

Printing date 03/11/2020

#### Product Name: Buffer Standard

· Indication of any immediate medical attention and special treatment needed No further relevant information available.

**5** Fire-fighting measures

- · Extinguishing media
- · Suitable extinguishing agents: Use fire fighting measures that suit the environment.
- Special hazards arising from the substance or mixture No further relevant information available.
- Advice for firefighters
- · Protective equipment: No special measures required.

#### 6 Accidental release measures

- · Personal precautions, protective equipment and emergency procedures Not required.
- · Environmental precautions: Dilute with plenty of water.
- · Methods and material for containment and cleaning up:
- Absorb with liquid-binding material (sand, diatomite, acid binders, universal binders, sawdust).
- · Reference to other sections
- See Section 7 for information on safe handling.
- See Section 8 for information on personal protection equipment.
- See Section 13 for disposal information.
- $\cdot$  Protective Action Criteria for Chemicals

## · PAC-1:

| 877-24-7  | potassium hydrogen phthalate | 9.6 mg/m <sup>3</sup> |
|-----------|------------------------------|-----------------------|
|           | hydrochloric acid            | 1.8 ppm               |
| 50-00-0   | Formaldehyde                 | 0.90 ppm              |
| · PAC-2:  |                              |                       |
| 877-24-7  | potassium hydrogen phthalate | 110 mg/m <sup>3</sup> |
| 7647-01-0 | hydrochloric acid            | 22 ppm                |
| 50-00-0   | Formaldehyde                 | 14 ppm                |
| · PAC-3:  |                              |                       |
|           | potassium hydrogen phthalate | 630 mg/m <sup>3</sup> |
| 7647-01-0 | hydrochloric acid            | 100 ppm               |
| 50-00-0   | Formaldehyde                 | 56 ppm                |

#### 7 Handling and storage

- · Handling:
- $\cdot$  Precautions for safe handling
- No special measures required.
- Follow good laboratory practices.
- · Information about protection against explosions and fires: No special measures required.
- · Conditions for safe storage, including any incompatibilities
- · Storage:
- Requirements to be met by storerooms and receptacles: No special requirements.
- · Information about storage in one common storage facility: Not required.
- · Further information about storage conditions: None.
- Specific end use(s) No further relevant information available.

## 8 Exposure controls/personal protection

- Additional information about design of technical systems: No further data; see item 7.
- · Control parameters
- · Components with limit values that require monitoring at the workplace:
- The product does not contain any relevant quantities of materials with critical values that have to be monitored at the workplace.
- · Additional information: The lists that were valid during the creation were used as basis.
- · Exposure controls
- · Personal protective equipment:
- · General protective and hygienic measures: The usual precautionary measures for handling chemicals should be followed.
- · Respiratory protection: Not required.
- · Protection of hands:

#### \_\_\_\_\_

The glove material has to be impermeable and resistant to the product/ the substance/ the preparation.

Safety Data Sheet acc. to OSHA HCS

*Printing date 03/11/2020* 

#### Product Name: Buffer Standard

Due to missing tests no recommendation to the glove material can be given for the product/ the preparation/ the chemical mixture. Selection of the glove material on consideration of the penetration times, rates of diffusion and the degradation

· Material of gloves

The selection of the suitable gloves does not only depend on the material, but also on further marks of quality and varies from manufacturer to manufacturer. As the product is a preparation of several substances, the resistance of the glove material can not be calculated in advance and has therefore to be checked prior to the application.

- · Penetration time of glove material
- The exact break through time has to be found out by the manufacturer of the protective gloves and has to be observed.
- Eye protection: Goggles recommended during refilling.

# 9 Physical and chemical properties

| Information on basic physical and ch     | aemical properties                            |
|--|---|
| · General Information                    |   |
| · Appearance:<br>Form:                   | Liquid  |
| Form:<br>Color:                          | According to product specification            |
| · Odor:                                  | <i>Characteristic</i>                         |
| · Odour Threshold:                       | Not applicable.                               |
| · pH-value at 20 °C (68 °F):             | 3   |
| 1  |   |
| • Change in condition                    |   |
| Melting point/Melting range:             | Undetermined.                                 |
| Boiling point/Boiling range:             | 100 °C (212 °F)                               |
| · Flash point:                           | Not applicable.                               |
| · Flammability (solid, gaseous):         | Not applicable.                               |
| • Decomposition temperature:             | Not applicable.                               |
| · Auto igniting:                         | Product is not selfigniting.                  |
| • Danger of explosion:                   | Product does not present an explosion hazard. |
| · Explosion limits:                      |   |
| Lower:                                   | Not applicable.                               |
| Upper:                                   | Not applicable.                               |
| · Vapor pressure at 20 °C (68 °F):       | 23 hPa (17.3 mm Hg)                           |
| · Density at 20 °C (68 °F)               | 1.00015 g/cm <sup>3</sup> (8.34625 lbs/gal)   |
| · Relative density                       | Not applicable.                               |
| · Vapor density                          | Not applicable.                               |
| · Evaporation rate                       | Not applicable.                               |
| · Solubility in / Miscibility with       |   |
| Water:                                   | Fully miscible.                               |
| · Partition coefficient (n-octanol/water | r): Not applicable.                           |
| · Viscosity:                             |   |
| Dynamic:                                 | Not applicable.                               |
| Kinematic:                               | Not applicable.                               |
| · Solvent content:                       |   |
| Organic solvents:                        | 0.0 %   |
| Water:                                   | 98.8 %  |
| VOC content:                             | 0.04 %  |
| Solids content:                          | 0.0 %   |
| • Other information                      | No further relevant information available.    |

#### 10 Stability and reactivity

· Reactivity No further relevant information available.

- · Chemical stability
- Thermal decomposition / conditions to be avoided: No decomposition if used according to specifications.
- · Possibility of hazardous reactions No dangerous reactions known.
- · Conditions to avoid No further relevant information available.
- · Incompatible materials: No further relevant information available.

# **11 Toxicological information**

- · Information on toxicological effects
- · Acute toxicity:
- · Primary irritant effect:
- on the skin: No irritant effect.
- · on the eye: No irritating effect.
- · Sensitization: No sensitizing effects known.
- · Additional toxicological information:
- The product is not subject to classification according to internally approved calculation methods for preparations:

When used and handled according to specifications, the product does not have any harmful effects according to our experience and the information provided to us.

· Carcinogenic categories

| IAPC (In   | ternational Agency for Research on Cancer)      |   |

- · vPvB: Not applicable.
- · Other adverse effects No further relevant information available.

# 13 Disposal considerations

- · Waste treatment methods
- · Recommendation: Smaller quantities can be disposed of with household waste.
- · Uncleaned packagings:
- Recommendation: Disposal must be made according to official regulations.
- · Recommended cleansing agent: Water, if necessary with cleansing agents.
